

# Thanksgiving Turkey

Someone has stolen our Thanksgiving turkey. We have rounded up four suspects Adam, Bill, Chuck and Dan. We know that the thief is either the oldest or the youngest. All suspects are liars, and although they each make three statements, each one makes only one true statement.

Adam Says:

1. Bill is the oldest.
2. The youngest among us is guilty.
3. Chuck is innocent.

Bill Says:

1. Adam is not the youngest.
2. Dan is guilty.
3. Dan is the youngest.

Chuck Says:

1. Adam is the youngest.
2. I am the oldest.
3. Dan didn't do it.

Dan Says:

1. The oldest among us is innocent.
2. Bill is guilty.
3. I am the youngest.

Who did it?
